Profile Summary

I have a total experience of 11 years experience and expertise in electrical, instrumentation, mechanical maintenance with Project handling and Documentation with a new machine erection commissioning in the (Paint, Resin gelcoat, Ethel acetate and ethanol manufacturing plant). currently currently I have working in Accord organics Pvt Ltd from June 2023 (Thermal power plant and Ethel acetate, ethanol manufacturing plant in this commissioning and installation of Thermax boiler (FBC-40ton) with supporting all equipment maintenance and erection like conveyor belt system, vibrator screen, Crusher, Bucket elevator, Booster fan, screw feeder, rotary feeder, bag filter, Simens turbine (2MW), colling tower, All plant pumps alignment and testing, all plant Electrical panel installation and supply distribution, APFC panel, VFD, ovens, condenser, reactor knowledge about lab equipments and testing, all earthing connection and safety rules). ETP and DM plants Erection and maintenance. I will handle an electrical audit.

Key skills

- Electrical Installation
- Planning
- Maintenance
- Preventive Maintenance
- Utility Maintenance
- Machinery
- Breakdown Maintenance
- Predictive Maintenance
- Breakdown Analysis
- VFD
- PLC
- HMI
- Industrial Automation
- Hydraulics
- Sensors
- Power Generation
- Power plant operation
- HT and LT Breaker
- Fire Safety
- Siemens PLC
- System Analysis

May 2014 - Aug 2017

Junior officer electrical

Ducati Energia PVT Ltd

Hands-on experience with installation, maintenance, and troubleshooting of electrical systems, proficiency in reading blueprints, and commitment to safety protocols, while emphasizing your ability to learn and contribute under supervision.

Installation and Maintenance:

Performing routine inspections, preventative maintenance, and repairs on electrical systems including wiring, panels, motors, and lighting fixtures.

Troubleshooting:

Identifying and resolving electrical faults using diagnostic tools, analyzing circuit diagrams, and implementing corrective actions.

Compliance:

Adhering to electrical safety codes and regulations, ensuring proper documentation of work performed.

Technical Support:

Assisting senior electrical engineers with project execution, including assisting with design calculations, material procurement, and system testing.

Data Collection and Analysis:

Monitoring electrical system performance, recording data on power consumption, and identifying potential efficiency improvements.

Documentation:

Maintaining accurate records of electrical system components, repairs, and maintenance activities.

Collaboration:

Working effectively with other departments to coordinate electrical work with overall project timelines.
